ABOUT THE TEACHER: Sara Gilbert

Sara holds the highly valued Practitioner's Diploma in Astrology from the Federation of Australian Astrologers. She passed the last of the four pre-requisite examinations, within two years of starting to study astrology formally, believed by most of her mentors to be a first!

Sara says *"I have loved the stars in the night sky and been fascinated by mythology for all of my life. If the Moon controls the ocean's tides, it just goes to show how it can affect human bodies which are greater than 60% water. Astrology is the most insightful and extensive self-development tool I have come across. It never ceases to amaze me, how many layers of understanding are contained in just a simple birth chart!"*
