The development of numbers is thought to be linked with the study of the sky by our ancient ancestors, the Chaldeans, Essenes, Egyptians and Hindus. Pythagoras of Samos, living around 500 BC, formed the first school of mathematics within his secret philosophical society. He believed that the entire cosmos revolved around the system of numbers, each associated with their own vibration or harmonic, which could be used to determine its nature.

Pythagoras developed the uncanny system taught in this course, using the energies around the time and name at birth to understand the individual's personality and make sense of the lessons they have come to learn in this lifetime.

Becoming aware of my numerology profile suddenly made sense of my life, the opportunities I've experienced and the challenges I face! In the hundreds of numerology readings I've undertaken, I have never encountered a person who didn't resonate with the messages received from their numbers.....

ABOUT THE TEACHER: Sara Gilbert

I've always been fascinated with numbers, colour and "what makes people tick". My make up is a halfway split between left brain business success and right brain spiritual healing, as you will see when you join my course!

I work with a full range of modalities (Tarot, Numerology, Palmistry, Chinese & Western Astrology), also integrating aspects around Chakras, Mythology, Crystals & the Kabbalah Tree of Life.

I am a Professional Member of the Tarot Guild of Australia and hold the Practitioner's Diploma from the Federation of Australian Astrologers. I regularly participate as a reader at Mind Body Spirit and other expos and festivals. I recently gave up a very successful management consultancy business so I can concentrate on my true passion, which is to help as many people as I can develop, grow and gain balance in their lives :)
