“The Tree of Life is so all encompassing it contains the seeds of every self-development tool you may come across and melds them together into a journey over all of our Soul’s Lifetimes. It also happens to integrate neatly with the Tarot, the Stars, our Bodies with their energetic Chakra system and the vibration of Numbers. From the time I started to study the Kabbalah, people have been asking me to teach it. I include aspects of it with my other teaching, but I had tended to resist because my style doesn’t meet the tradition. I’m not Jewish or a man and it’s supposed to be taught mouth to ear not written down or put on a “Powerpoint”. But now the time feels right, after all I AM over 40, so I’m putting my toe in the water!”
