Workshop outline

This workshop combines the ancient wisdom from Astrology, Palmistry, Tarot, Numerology and the Kabbalah Tree of Life, enabling participants to develop an understanding of the key lessons they are here to experience in this lifetime.

Fingerprints

Dermatoglyphics is a study of the ridge patterns in the skin on the hands, particularly the fingertips. Detectives and police licensing agencies have used this for identification purposes for years as even twins have unique fingerprint patterns. Extensive research by Palmists has shown this can be used to uncover our purpose here on earth, what skills and experience we are likely to develop and which areas of our life and personality have the potential to hold critical lessons for us.

You will gain:

- Understanding of fingerprint types, their meanings and associations
- A map of your specific fingerprints
- Knowledge of your purpose here in this lifetime
- Identification of any “Archetypes” associated with your fingerprints
- The strengths and key opportunities for improvement at your fingertips

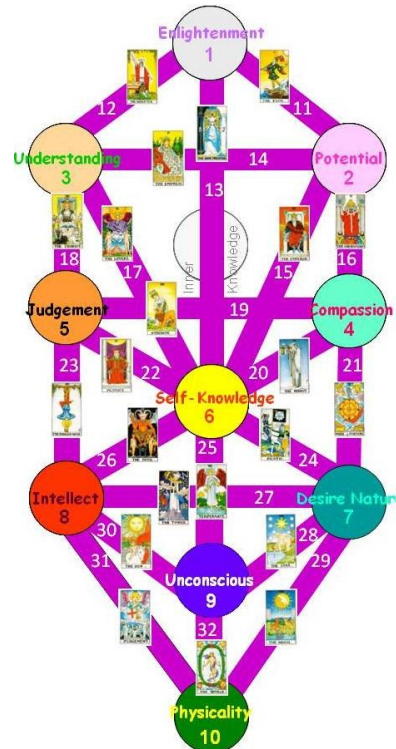

Date and Name at Birth

The workshop introduces the structure of the Tree of Life, whereby every Major Arcana card from the Tarot, fits onto a numbered path, also associated with a Hebrew letter.

The date of birth gives valuable information about the lessons to be learnt in this lifetime. The path it corresponds to on the Tree, conveys a special message for us, amplified by its symbolic letter.

Likewise the letters in one’s name at birth can be converted into numbers and used to calculate the number of another path which reinforces our journey with skills brought forward from previous lives, which can assist in our current development process.

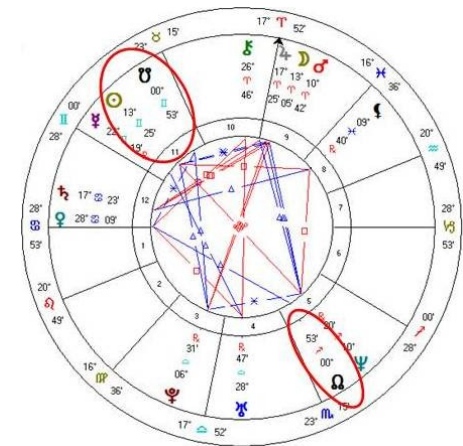

These two paths help make sense of the reasons we are really drawn to some Tarot cards and dislike or are repelled by others. This can sometimes mean the cards carry messages we are not particularly keen on hearing; in a similar manner to the parts of ourselves we are not ready to accept.

Astrology Natal Chart

The sign, position, condition and aspects to the natal **Sun** tell much about our life potential and the opportunities as well as the challenges we are likely to face as we develop and grow.

The two points in the sky where the apparent path of the Sun around the Earth, crosses the Moon’s orbit around the Earth, are known as the **South and North Node of the Moon**. These points by sign, position and aspect, show where we have come from and what we are trying to develop into. If you like, they represent our previous past life and our life purpose or key lesson for this lifetime. Sara will demonstrate what these three points indicate in the charts of participants, so that they can decide where they are on their journey, moving forward or merely repeating old comfortable patterns of behavior.
