Sara Gilbert

Sara Gilbert is a Professional Member of the Tarot Guild of Australia based in Frankston. She is also a member of the Association of Professional Astrologers and holds the Practitioners Diploma in Astrology from the Federation of Australian Astrologers. Sara has been practicing and teaching Palmistry since completing a certificate course at Visionary Spiritual College in 2006. She has since thoroughly researched the subject and in the course of conducting hundreds of Palmistry readings she has added much of her own intuitive knowledge to this foundation. Sara includes the hands of famous people, along with those of the students, to bring greater depth to the training experience. She also offers tuition by correspondence teaching students the art of hand printing in order to overcome the difficulty through lack of practical demonstrations on live subjects.

Sara's gift is decoding the unique emotional patterns in your life, enabling you to become at home with yourself and find your special place in the world. She is able to draw on wisdom from multi-faceted knowledge of esoteric systems: astrology, tarot, myth, goddess energy, the tree of life, numerology, palmistry and hand analysis. This enables a richer understanding, as each tool reinforces your life design through a slightly different lens. Sara can work with you through private consultation or a series of courses and workshops. She regularly reads at festivals, parties, ladies nights & corporate events, working in most states throughout Australia.

Course Context

- Learn from each others hands
- Examples of famous people's hands
- Hand Analysis through Fingerprints and Gift Markings

Palmistry is such a wonderful ice breaker for introducing spiritual abilities. When you say you work with tarot or astrology, many people are wary or sceptical. But mention that you read palms and you are instantly inundated with hands! I learned the art by accident and was amazed at the depth brought by adding it to my divinatory tool box. For those who "feel", it has the added advantage of the insight gained through holding a hand.
